In the morning there are some walks through the many mound-hills (portion of non-flooded land that congregate large number of mammals among many birds' nests (LOW) or at the gallery forests (HIG). The boat trips are done on a beautiful 3000 hectares bay of the Bento Gomes river, bordered by dense forests and large fields where a nesting site can be seen from the top of the observation tower; or at the Claro river, with exchange of environments and possibility of seeing the Giant-river Otters, Agami heron and many other animals that, specially at the dry season, have there their only water resource in a 35 km diameter of area.

In the morning there are some walks through the many mound-hills (portion of non-flooded land that congregate large number of mammals among many birds' nests (LOW) or at the gallery forests (HIG). The horse riding are the most versatile way of transportation through the flooding fields (LOW) or through the Savannah (HIG) as, being member of the local fauna, the animals don't perceive the horse man - what permits a great approaching.
